

increase community

Exponent^{Non-Profit} is one product in Think's library of web-based, community-centered software applications.

Make more "non-profit."

Attract more donors with web software that pays for itself.

Exponent Non-Profit: Making Life Simpler for 501(c)3s and Non-Governmental Organizations.

Introducing Exponent Non-Profit, the web-based software platform for non-profit organizations who want to point, click, and deposit. Exponent Non-Profit can handle every aspect of the on-line donation process.

International Child Care USA, Inc. uses Exponent Non-Profit.

Exponent Non-Profit integrates seamlessly with your existing web site. You don't need to redirect users to different servers, use extra frames, or send credit card data through visible URLs.

We'll even help you get your web site listed on search engines like Google and Yahoo! Search.

Exponent works with Netscape Navigator, Mozilla, and Firefox, too—not just Internet Explorer.

If a visitor makes a mistake when filling out your form, Exponent Non-Profit will highlight the error before the request goes through.

On-Line Giving

Please completely fill out the form below to make a donation to International Child Care.

Donor Information

Salutation:

First Name:

Last Name: **This field cannot be left blank.**

Suffix:

Title:

Organization:

Address 1:

Process donations in USD with donors' credit cards issued in the United States, Canada, and other countries, as well!

Think offers GeoTrust SSL certificates to encrypt credit card data as it's sent to the server, and in the background, Exponent Non-Profit encrypts sensitive data once more for secure database storage.

Multi-Faceted

Exponent Non-Profit is a program of many talents. From the targeted e-mails you send out to potential donors, to the on-line credit card processing technologies necessary to make the entire process work, Exponent Non-Profit can handle it all. Think Computer Corporation is even an authorized reseller of Authorize.Net merchant account and payment gateway services, so that you only have to deal with a single vendor for your entire on-line donation project.

Simple

You can approve a batch of transactions with just two clicks, sending donation money directly to your checking account. You can also use the database of donors for future direct mailings, or broadcast e-mails to let everyone know what's new with your organization.

Trustworthy

The centralized Exponent servers are located in a secure facility, monitored daily, backed up nightly, and connected to the internet backbone via a plethora of Tier 1 providers, including AT&T, Qwest and Level 3. Most importantly, we've built the best security measures available into the software to keep your data safe.

Cost-Effective

For most active non-profit organizations, Exponent Non-Profit will pay for itself within months. Starting at just \$1,499.00 (excluding merchant account, web site hosting and SSL fees), it's priced to sell. Best of all, there are no recurring fees for the software itself. Pay once, and your organization owns the version license forever. There's no better deal.

What You'll Need

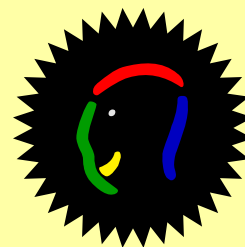

Exponent Non-Profit works with the Authorize.Net credit card processing system to handle your donors' credit cards. Here's what you'll need to get started:

- IRS EIN or Canadian TIN
- 501(c)3 Non-Profit Status or Equivalent
- A Checking Account in the United States
- Think Web Site Hosting Account
- Think Merchant Account
- Authorize.Net Payment Gateway Account
- Web Site
- 128-bit SSL Certificate

Think Computer Corporation is your one-stop shop to get set up. If you think you're missing anything on the list, just give us a call, and we'll be glad to help you out.

Where do I go next?

You can purchase Exponent Non-Profit and other Think products from any company that displays the Think Authorized Reseller logo. If you need help finding a reseller, just e-mail us at info@thinkcomputer.com.
